

Fido Finance LLC now enable US Merchants and Business with the latest Payments Technology

Fido Finance, a UK based Online Payments Technology and Payments Gateway Company has expanded to the US Market. They offer Online Payments Gateway technology and Online Pre-Paid Card technology for companies and merchants in USA.

Dover, Mar 6, 2020 ([Issuewire.com](https://www.issuewire.com)) - [Fido Finance](#), a UK based **Online Payments Processing and Payments Gateway Company** has expanded to the US Market and has opened offices in Dover Delaware.

“We want to enable merchants and businesses in the USA with technology to process payments with their bank or acquiring providers. We do not offer the acquiring service but purely the technical capability to accept payments with the latest technology and PCI DSS Level 1 Compliant Gateway” said Paul Kenner, Head of Sales in the EU for Fido.

In the ever-changing payments and website landscape, it is important for merchants to create a seamless and frictionless experience for their customers to pay. Our technology comes pre-integrated to CMS platforms like Magento, WooCommerce, Drupal and Prestashop to mention a few.

“Our Market-leading platform enable both merchants and cardholders to make and receive payments using the latest technology and security features like the latest 3D Secure version that protects the ecosystem from Fraud. Our offering includes all major card acquiring services (Visa, MasterCard, American Express and China UnionPay)” said Paul Kenner.

FIDO Smart Payments Gateway also offers alternative payment options like Skrill, Neteller, Klarna and many others.

“We offer our solution to both normal retailers selling goods online but also to companies offering trading or other crypto solutions to customers. Our key difference is our understanding of managing and supporting merchants on questions related to risk and fraud,” said Paul Kenner.

About Fido Finance LLC

Fido Finance is revolutionizing the payments world with new and innovative technology to secure and simplify the payments flows. We aim to enable companies to accept cards but also give them the opportunity to offer per-paid cards to their customers with own branding and maybe allow them to become the next fintech company. Fido has offices in the UK, USA and Malta and service Customers in the EU, EEA, and USA. Please visit <http://fidopaytech.com/> for more information on our offering in USA.
