

GoTen Global Site Has Rolled Out for Better Dropshipping Service

Shenzhen, Mar 25, 2020 (Issuewire.com) - Recently, GoTen, the professional [dropshipping platform](#) for cross-border E-commerce, has released a global site (GoTen.com) with more new functions, provides more convenient dropshipping services to global online retailers.

An increasing number of online sellers choose the dropshipping model to run their stores because by doing so, they can be more focused on marketing strategies and customer issues while avoiding all the troubles of stock and delivery. Therefore, it is vital to select a highly efficient and user-oriented dropshipping platform to save more time and effort to drive more traffic and boost sales. And here's how GoTen global site can help!

GoTen has achieved a great improvement in terms of simplicity and usability, enabling global sellers to place orders of top-selling products from multiple overseas warehouses, so the products can be delivered straight to the end-customers' doorsteps as soon as possible.

Read on to know more about GoTen's complete dropshipping services!

Big-data Based Product Recommendation

Taking advantage of big data research and analysis, GoTen allows the online sellers to easily add [best-selling products](#) as well as selected items to their stores. What's more, over 100 SKUs of new arrivals are updated every month, and the most promising products will be recommended for specific platforms. No longer will you need to spare no time and effort to select trending and quality products. Dear sellers, choose GoTen, success in your business is at your fingertips!

Customized Product Service

Not content to directly add the recommended products to the store, some sellers may search for more personalized services to differentiate their items from other similar dropshipping sellers. Confronted with

such cases, GoTen considers the needs and therefore, offers customized product service if needed. GoTen follows the product differentiation strategy to work with the sellers. And differentiated products can be also customized for different needs. Similarly, customized pictures can be provided to create the best-selling products. Moreover, you can cooperate with GoTen to develop new products by taking part in research, stocking up and making sales ahead of others.

Fast Delivery from Local Warehouses

At present, GoTen owns multiple overseas warehouses with a total of 450,000 square meters. The local US, UK warehouses ensure all the products are shipped from wherever the customer places an order. Benefiting from GoTen's local warehouses all over the world, you can run your online business even in the more developed or developing countries without the troubles of managing or paying for a warehouse.

24/7 Support Teams

GoTen has a [help center](#) from which you can get answers to FAQs about GoTen, products, and services immediately. There are also pre-sales and after-sales support ready to help you and your customer with anything related to your orders at any time for maximum satisfaction. If you're looking for a partnership, don't forget that our support teams are open to your ideas.

Coupled with our professional 24/7 support teams as your business partner, your products will be more competitive than traditional retail online sellers'.

Order & Inventory Sync Function

To save more time and troubles for the sellers, sync functions for orders and inventory are also available on GoTen global site. With strong IT support, after you bind your stores to GoTen account and add SKU mapping, all the orders placed on the third-party platforms can be automatically synchronized, and you can place GoTen orders with just one click. Also, auto-synchronization for both inventory and tracking number is available, so you can obtain the relevant data with ease. No need to bother filling in the product information, delivery address or processing with the complicated excel forms anymore! GoTen helps you to manage orders more effectively and efficiently!
