

How to Choose The Best Engineering College Other than IITs or Govt Colleges

Engineering college near me

Jaipur, Mar 27, 2020 (Issuewire.com) - Well qualified teachers, great infrastructure and proper training for students are provided at Vivekananda Institute of Technology, that also provides great placements for their engineering courses making it one of the best colleges in India.

Vivekananda Institute of Technology, Jaipur is one of the best colleges you can find when you are searching for [engineering colleges near me](#). The college is this great because of the great campus recruitment records it has, and the lush green campus and residential facility, where students get to study from. The college has quite a few departments such as civil engineering, mechanical engineering, electronics and communication engineering, electrical engineering and computer science engineering.

[List of engineering colleges in India](#) will always have Vivekananda Institute of Technology, because of the well qualified and experienced faculty members that nurture the students who graduate and eventually get great packages as several multinational companies such as Royal Enfield and Mitsubishi. The digital library, regular workshops, seminars and conferences provide students with the perfect exposure to both industry and academics allowing them to be more aware and productive in their respective fields. Students are inspired to follow their aspirations and are also taught technological and management skills so that their dreams to become professionals can come true.

The college has state of the art labs for every course which coupled with a great campus life promotes learning amongst the students. Students who are eligible for placement opportunities are exposed to a whole array of recruiters which include Infosys, Amazon, Wipro, Microsoft, Cognizant and Samsung among others. The college is also known for its unique innovation Hub and Robotics Lab on campus which is something very new to North India, labs like these imbibe design thinking, where students

experiment with ideas and build prototypes. The college also collaborates with several reputed companies to train the students and keep them up to date with the latest technologies and industry practices, organize industrial visits, invite faculty from industry, conduct guest lectures, workshops and conferences, facilitate summer internships and host centres of excellence. This is done to facilitate the students with industry-specific training, soft skills training and value-added certifications to make the students more 'industry-ready'.

Things that make this the best college out of all the engineering colleges that come up when people search for engineering colleges near me are:

- State of the art infrastructure with labs equipped with certification from Cambridge and Oxford University Press.
- The medical facility on campus, laptop facility, auditorium and an open-air theatre for students.
- Well furnished multi-cuisine cafeteria which provides healthy hygienic and nutritious meals, snacks and beverages.
