

ICD-10-AM Training and Consulting Services by MEDESUN

Comprehensive Australian Medical COding Training and Services

Hyderabad, Mar 18, 2020 ([Issuewire.com](http://www.Issuewire.com)) - Medesun Healthcare Solutions, pioneers in ICD-10-CM and ICD-10-AM Training providing comprehensive ICD-10-AM Training and consulting services.

Australian coding system is being implemented in Saudi Arabia, Qatar, New Zealand, Ireland, Singapore etc. Australian Medical coding system includes [ICD-10-AM](#) for diagnosis, ACHI-Australian Classification for Health Interventions, ACS-Australian Coding standards. The Medesun ICD-10-AM

Online Training includes Turbocoder in detail.

Medesun provides the following related to the ICD-10-AM, Coders Desk Reference for ICD-10-AM Diagnoses, CDR for ACHI Procedures, Medical Necessity Mapping ICD-10-AM to ACHI, ICD-10-AM Coding Edits, Clinical Documentation Improvement CDI, ICD-10-AM coding alerts, forum for coding questions and answers, ICD-10-AM expert coding guidance, ICD-10-AM to SNOMED Mapping and ACHI to CPT Mapping. The coding training is related to 10th Edition.

ICD-10-AM Clinical coder should have through knowledge of AM, ACHI and ACS. Clinical coder should understand how to assign the COF/CHADx, Principal diagnosis, Additional diagnoses, ACHI codes, inclusions and exclusion, National coding advise in detail. Clinical coders translate diagnoses and procedures documented in the medical record into codes. This data is used for a variety of purposes including funding, planning, research, disease surveillance and quality activities. Medesun course developers and tutors have worked as coders, auditors, and lecturers.

To become a clinical coder it is necessary to complete an accredited ICD-10-AM coding course. Clinical coding courses are offered by the following institutions: • Health Information Management Association of Australia (HIMAA) HIMAA offers an Introductory ICD-10-AM, ACHI and ACS coding course. Entry to this course requires an 80% pass mark in the HIMAA Comprehensive Medical Terminology course or the HIMAA Challenge exam in Medical Terminology.

MEDESUN provides online ICD-10-AM Training with hundreds of medical scenarios for practice with dedicated one to one trainer and robust Learning Management System.

Medical coders are needed in every kind of healthcare environment, including hospitals, physicians' offices, behavioral health organizations, and anywhere patients go to receive services. MEDESUN is Not Recognized by HIMAA. ICD-10-AM, ACHI and ACS are TMs of IHPA-Australia
