

Joseph I. Miller Jr., MD, a Thoracic Surgeon with Piedmont Heart Institute

Get to know Thoracic Surgeon Joseph I. Miller Jr., who serves patients in Atlanta, Georgia.

New York City, Mar 10, 2020 ([IssueWire.com](https://www.issuewire.com)) - With over 43 years of experience in his field, Dr. Miller Jr. practices as a thoracic surgeon with Piedmont Heart Institute in Atlanta, Georgia. He is also affiliated with Piedmont Atlanta Hospital.

Throughout his extensive career, he has performed thousands of surgeries, specializing in surgical

interventions for esophageal cancer, lung cancer, hyperhidrosis, and more. In 2017, he received the Emory Gold Medal, which is the highest alumni honor. That same year, he was also awarded the William Waters Award, being honored by peer review as one of the outstanding members of Piedmont Heart Institute.

Piedmont Heart Institute is a clinical destination for cardiovascular care and a leader in advancing innovative heart and vascular care for patients with even the most complex conditions. At Piedmont Heart Institute, the standard of care – the way that medicine is practiced every day – is an integrated approach designed by their own cardiovascular leadership. This model of care has gained national recognition for optimizing quality and improving patient outcomes and experiences.

On the subject of his educational background, Dr. Miller Jr. received his medical degree in 1965 from the Emory University School of Medicine in Atlanta. Upon graduation, he went on to complete his internship and residency at the same educational venue. He then completed additional training with the Mayo Clinic

A member of the American College of Surgeons, the doctor is board-certified through the American Board of Surgery and the American Board of Thoracic Surgery. What's more, he has served as a Director of the American Board of Thoracic Surgery and Vice Chairman of the Residency Review Committee for Thoracic Surgery.

Cardiothoracic surgery, also known as thoracic surgery, is the field of medicine involved in the surgical treatment of organs inside the thorax (the chest) - generally the treatment of conditions of the heart (heart disease) and lungs (lung disease). A thoracic surgeon treats injuries, diseases, and congenital abnormalities in a patient's chest, with an aim to improve or restore functions.
