

Kenznow partners with 4Stay, brings offcampus stay booking for Indian students going to study abroad

Indian students can now book off-campus accommodation in USA, online through [Kenznow.com](https://kenznow.com)

Mumbai, Mar 25, 2020 ([Issuewire.com](https://www.issuewire.com)) - Kenznow, World's 1st marketplace for needs abroad has joined hands with 4Stay - an online student housing marketplace based out of Sunnyvale, CA to offer the overseas student an easy option choose and book off-campus student accommodation. **The service is now live on [Kenznow.com](https://kenznow.com)** for students to book stays.

Every year across the world, **over 4.5million students** decide to move out of their home country to study abroad. These smart young lads are looking to create a bright future for themselves and seek novel learning environments in countries across the world. In the process, all of them become part of a growing integrated community of international students and global citizens.

Once the student has selected the country, course and college to study overseas, the next most critical aspect is Stay. There is a slew of universities that provide on-campus staying options to students but there are many that don't. In such cases, the student needs to look for off-campus staying options. International students are growing year on year fueling the need for off-campus student housing.

The partnership with 4stay shall enable **Kenznow students to choose from a variety of housing and affordable rooms for rent around the college campus**. All international students can easily search online by visiting www.kenznow.com, for fully furnished apartments, private rooms, shared rooms and entire homes for a semester, a year, month-to-month basis or even short term rentals.

Talking on the development **Kunnal Sharma**, Founder and CEO of Kenznow said that “We are looking forward to the partnership with 4Stay to provide easy, comfortable and economical off-campus stay option for the international students”

Faridun Nazarov, co-founder & COO of 4stay said that “4stay is happy to partner with Kenznow and believes that the synergies of both organisations shall benefit the students in the Indian sub-continent by providing them with direct access to book their off-campus stays.”
