

ManagedPMO as the 1 st rank in Property Management Solutions

starting a revolution in Property Management Software Solutions

Central Visayas, Mar 4, 2020 ([Issuewire.com](https://www.issuewire.com)) - Maintaining and managing all the data around your property, residents, facilities, or other such information and making it available for queries and reports are a necessity in today's business world.

That is why after ManagedPMO was introduced by RoboMo, Inc., several leading property managers recognize it as the solution to take their operations to the next level.

ManagedPMO is the flagship product of RoboMo, Inc. It is a cloud-based property management platform that combines property management domain expertise with the most comprehensive and secure SaaS technology.

This solution offers tools to automate PMO processes, capture billing generation details, tracking of utility usage and allows you to track and monitor your property performance with detailed analytics. It also allows the businesses full access control including customization of the features, reminders, functions, forms and standard reports.

The integrated software platform enables the property managers to digitize, automate, and have a holistic view of their property while increasing the efficiency and reducing

the manual work with just a couple of mouse clicks. Users can also access the portal from anywhere around the clock.

As an example, property owners can send bulk notices or group emails for rent reminders, maintenance alerts, a site visit or any other news that needs to be shared with all the tenants.

Since the launch of ManagedPMO, RoboMo Inc. has set the standard for responsiveness and technical innovation giving the clients a business edge and superior quality service.
