

## MobileSentry is open for your service in the COVID-19 effect

**Chantilly, Mar 25, 2020 ([IssueWire.com](http://IssueWire.com))** - We thought long and hard about sending this email because we know you have enough to think about right now. In light of the impact of the Coronavirus worldwide, we wanted to confirm all our customers; **MobileSentry** will continue to be open for business. Please feel free to reach out to our customer support line if needed, and we will continue to work around the clock to deliver parts through this hardship.

For all our local customers, in-store pick up will be modified to a "drive-thru pick up" service. Please call our customer service line (202-540-9946) when you are outside, and a team member will come to your car with your order.

We, first and foremost, are thinking about you. We continue to receive inventory so you can have what you need in your shops during this unprecedented time of uncertainty. While there may be disruptions we cannot control down the line, we are confident we are working through as many scenarios as we can imagine ensuring that you'll get quality parts when you need it most.

We are in this with you and will do everything in our power to help you stay in business. Wishing you and your family safety and health.
