

Patricia Furey, MD, FACS, a Vascular Surgeon with Catholic Medical Center's Vein & Vascular Specialists

Get to know Vascular Surgeon Dr. Patricia Furey, who serves patients in Bedford, New Hampshire.

New York City, Mar 28, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Dr. Furey is a board-certified and fellowship-trained vascular surgeon whose clinical interests include lower extremity peripheral vascular disease, angioplasty, atherectomy, drug-eluting balloon, complex venous disease, May-Thurner syndrome, and deep vein thrombosis. She is the Chief of Vascular Surgery at Catholic Medical Center's Vein & Vascular Specialists, a first of its kind practice in Bedford, New Hampshire.

Catholic Medical Center's Vein & Vascular Specialists has the experts and advanced technology each patient needs in a convenient outpatient location. They provide advanced diagnostic care and individualized treatment using the latest technology available.

After earning her Bachelor of Arts (BA) degree in Biochemistry from Dartmouth College, Dr. Furey went on to obtain her medical degree from the Warren Alpert Medical School of Brown University (Brown-Dartmouth Medical Program). She completed her surgical residency at the University of Connecticut Health Center, followed by her fellowship in vascular surgery at the Pritzker School of Medicine. She also completed a fellowship in endovascular surgery at Cleveland Clinic Health System-School of Diagnostic Imaging.

A Fellow of the American College of Surgeons (FACS), the doctor is a member of the Society of Vascular Surgery, the New England Society of Vascular Surgery, American Venous Forum, and the Boston Surgical Society. She is also affiliated with Monadnock Community Hospital, Huggins Hospital, Parkland Medical Center, and St. Joseph Hospital.

Furthermore, she is board-certified in both vascular surgery and general surgery by the American Board of Surgery, an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally-invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses treats, and manages conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.

Outside of practicing medicine, Dr. Furey enjoys spending time with her husband and daughters.
