With over 30 years of experience in his field, he is the owner and operator of Caton Chiropractic in Beaver Falls, Pennsylvania, which he opened back in 1993.

During his time playing college football, Dr. Caton received the services of a chiropractor, which inspired him to get into the field. He earned his Doctor of Chiropractic (DC) degree from Palmer College of Chiropractic in Davenport, Iowa in 1988.

Wanting to share his expertise with those interested, he had a radio show on Beaver County Radio.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain and back pain. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself without the use of medication or surgery.
