

Rent or Hire from Youngman India to Assure 100% safety at workplace !!

Let's not compromise safety for business !! Since 1926, Youngman maintains the safety component as the main priority while manufacturing Towers, Ladders, Lifters, etc.

Greater Noida, Mar 1, 2020 (Issuewire.com) - Imagine, you are having a morning tea and checking the daily news when you come across some disturbing news about a worker died at the construction site falling down from a ladder; or workers injured because of the Bamboo pillars hung loose; or might be any other reason which points to a serious concern for Safety at Construction Sites. What will you do?

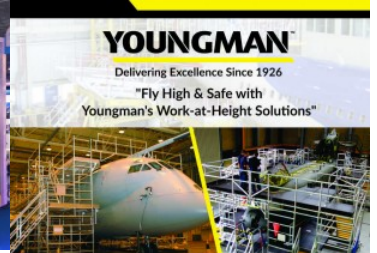

This is the aim of Youngman to fully stop the injuries & casualties by 100 percent anywhere people work at height, maybe in the construction site or home. We believe that by providing workers with the right tools and training, we can professionalize industry and construction in India, creating a safe work environment for all. Founded in 1926 in the UK, Youngman is a well-accepted name for **Work-at-Height** companies in the world, manufacturing the safest Ladders, Towers, Scaffolds, etc. Since 2011, Youngman India has served the Indian market with the same expertise and professionalism working with brands like TATA, L&T, Shapoorji Pallonji, Bluestar, etc.

Manufacturing has emerged as one of the high growth sectors in India. According to the Global Manufacturing Competitiveness Index, India is expected to become the fifth largest manufacturing country in the world by the end of the year 2020. The government aims to achieve a 25 percent GDP share and 100 million new jobs in the sector by 2022. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 percent by 2022, from 16 percent, and to create 100 million new jobs by 2022. This is high time for technological advancements, infrastructural developments, innovative solutions, etc. Thus sectors like Constructions, Real Estate, and Power will be in the boom for a decade or more. Hence, safety at the workplace is the next concern for the next two decades. Youngman is always focused on Safety-first educating users on how to safely work at heights and our products are built to prevent misuse and limit risk. Our products are easy to set up and safe to use, improving safety when compared to competitors.

We use top quality high-graded Aluminium and Fibre Glass materials for manufacturing Ladders, Scaffolds, and mobile towers assembled with patented Snap Lock, Robotic Welded frames, Telescopic Stabilisers, Floating Spigots, Castors with the Locking mechanism, adjustable leg and Toeboards. Youngman India also offers a wide range of products from the World's best brands like Youngman, Belle, Ability, Sumner, Hilti, and Haemmerlin who offer the latest technology to make your work safe and efficient. Thus, Rent or Hire from Youngman India to assure 100 percent of safety to your workforce.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destinations of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2.5 trillion along with a population of 1.32 billion people, which will be a big draw for investors.

With impetus on developing industrial corridors and smart cities, the government aims to ensure the holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for industrial development and will promote advance practices in manufacturing. With a high scope of development defined, let's not put worker's life at stake forgetting Risks and Safety measures. Let's build together a Safer, Developed, and Prosperous India.
