

Shazi Ahmad Siddiqui enters into bollywood

Shazi to produce web series

Mumbai, Mar 23, 2020 (IssueWire.com) - According to a report in a daily, we hear that Shazi Ahmad Siddiqui will soon be seen in a web series. The daily spoke to a source close to the project regarding the same. The source stated, "Shazi's team of writers has conceptualised and developed the material. It was recently pitched to the heads of the streaming giant, who have been keen to collaborate with the superstar and looking for a project that is worthy of him. The show is a human-interest drama."

While most of us thought Shazi Ahmad's is looking to kick start his dream project Bharata, the source denied it by saying that Bharata is in the works but, the web series will be something different.

With stars like Saif Ali Khan, Rajkummar Rao and Nawazuddin Siddiqui tasting success in the digital space, we're not surprised that Shazi too wants a piece of the pie.
