Strength H2O Industrial Solutions provides professional & reliable office disinfection and decontamination services to stop the outbreak of the coronavirus at workplace.

Troy, Mar 22, 2020 ([IssueWire.com](http://www.IssueWire.com)) - **Strength H2O Industrial Solutions** provides professional & reliable office disinfection and decontamination services to stop the outbreak of the coronavirus at workplace.

The coronavirus has been declared the pandemic and it is seemingly untameable. Extraordinary disinfection and decontamination measures should now be taken to control all the bacteria and viruses—above all the coronavirus (COVID-19).

Your workplaces can most likely be infected with disease causing germs as you are being visited by a number of people during your working hours. Your employees working in the confined spaces may easily be susceptible to these lethal germs. The infected person can transmit the germs of coronavirus in a time span of only few hours. The affected individual may have rubbed his hands with many different surfaces, such as doors, desks, handrails, and other welfare facilities.

Strength H2O Industrial Solutions Disinfection and Decontamination Services will provide cent percent sanitized workplace using **CDC** and **EPA** Approved Industrial-Strength Disinfectants with a broad spectrum kill claim. Rest ensured that you will save your staff from an infectious disease, such as COVID-19.

Strength H2O Industrial Solutions Disinfection and Decontamination Services offers services to prevent the expansion of the coronavirus.

The basic service involves Biohazard Prevention Package. For ensuring complete safety of your workplace, our experienced team members will deeply sanitize your building, keeping in mind the touch-point surfaces to stop any potential spread of the coronavirus throughout your building. This service can be availed regularly to develop a sense of safety and peace of mind among your workers.

The second package includes a full fledge sanitization service of your workplace. Either you have COVID-19 infected staff member or you are doubtful that any of your employee has been in contact with any infected person, then our brief biohazard decontamination services can be availed. **Strength H2O Industrial Solutions'** skilled team members will decontaminate your space in an intensive way. Extra precautionary measures will be taken to ensure a complete pathogen free space for your employees.

Our comprehensive Biohazard Decontamination Services include:

- Workplace/office deep clean and disinfection
- Touch-point surface cleaning
- Carpet disinfection
- Upholstery disinfection
- Fogging:

Why Strength H2O Industrial Solutions?

Unlike other Disinfection and Decontamination Services, **Strength H2O Industrial Solutions** proudly introduces a **Coronavirus Demobilization Process for Our Equipment & Trucks**. This process will enhance your confidence in our reliable services.
