

Techment Technology Inaugurates a new Development Center in Indore

Techment has turned a new leaf, a new chapter in its journey with the opening of a new development centre in Indore.

Bhilai, Mar 5, 2020 ([Issuewire.com](https://www.issuewire.com)) - Techment Technology is the leading provider of innovative software products and services in Chhattisgarh. It was founded by two visionaries, Manish Agrawal & Somesh Sharma, in the year 2013.

Techment has announced the opening of its new development centre in Indore; its third in India. Being the vanguards of developing a software ecosystem in Chhattisgarh, Techment has been able to empower careers, and create job opportunities in the Tier-II city Bhilai. Leveraging its good corporate governance practices, the organization expects the new center to create significant value and propel growth further.

[Manish Agrawal](#), co-founder & CEO, shared Techment's fascinating journey from a small startup with a team of "3" to an organisation with 150+ team members, who have made a mark in the global technology community. "The opening of this new office is a logical step in our business growth strategy, as diversity will further strengthen our innovative capabilities" he added while sharing Techment's grand vision of becoming a trendsetting digital catalyst.

[Somesh Sharma](#), co-founder and COO, spoke passionately about Techment's potential catalytic role in creating career opportunities for local talent of Indore, and MP. The opening of the new office, he said, was part of the ambitious expansion plan. He spoke of Techment's distinguished culture of learning, and winning, about Techment 2.0 and the mass hiring of software engineers.

Awards and Accolades

Techment's process automation tool "**Transassured**" was acquired by a US-based organisation AVO, in 2019. The acquisition brought forth Tecment's capabilities as a world-class software product and services organisation.

Techment also received the prestigious award by Entrepreneur Organisation (EO) for the "Most Innovative Business Model", in 2019.

The presence of distinguished dignitaries, CEOs, CTOs, bureaucrats and other senior leaders from the world of technology added immense grace and gravity to the event.

About Techment Technology

Techment is a product-focused development company that enables organisations at a global level to solve business challenges with the help of technology. Their team consists of passionate techno-functional experts that bring an outside-in approach and work as an extension of client teams. This, in combination with their high-velocity agile delivery model, leads to operational efficiency gains that result in higher engagement ROI for the clients. The organisation is industry agnostic and works with companies of all sizes, including disruptive startups. Headquarter in Bhilai (India), Techment has offices in Bangalore and Dallas, USA.

Techment is driven strongly by the principle of Agility, Simplicity and Innovation.
