

Towards Joyful Relationships With Viveck Shetty

Mumbai, Mar 5, 2020 (IssueWire.com) - Viveck Shetty, Life Coach, Yogi, and Mystic recently concluded a highly interactive and successful **Relationship Management Workshop** at **Peninsula Redpine, Andheri**. This two-hour long session threw up many interesting questions concerning various **aspects of relationships**. Viveck Shetty replied to each one of them in his characteristic lucid style.

What are the secrets of longevity in human relationships? what is the true meaning of love?, why is it referred to as falling in love and not rising in love? All deep profound and interesting questions were the highlight of this **unique relationship management workshop** that saw **participation from people of various age groups and different walks of life**. Some pertinent observations made by Viveck drew **thunderous applause** from the audience. A case in point was when he stated " **we have constant doubts about who loves us, but we are absolutely sure about who hates us. This in effect means that the people whom we very often perceive hate us, occupy maximum space within our mind**".

Viveck Shetty also urged the participants to **treat every relationship as a variable and not a constant**. This realization would ensure more often than not that our experience in **every relationship is a joyous one** and there **is little room for disappointment**. **Modern marriages are more a culmination of needs but are often mistaken for love. This misconception leads to a lot of chaos and confusion. To ensure longevity in relationships, it is important that the individuals concerned remain bonded at their energy layers. In good old days, all the rituals were effectively designed to tie down the individuals at their energy layers for a blissful, long-lasting experience.**

This workshop gave **valuable insights into the dynamics and mechanics** that govern relationships. **Rare mystic knowledge combined with effective scientific analysis** has been the hallmark of most workshops conducted by Viveck Shetty. He summed it up beautifully by observing, "**the idea of two people becoming one is beautiful, but usually scanned attention is paid to the process**"
