

TransGlobal Assets Inc. (OTC: TMSH) Provides Pain and Depression Relief with Two New Cannabis Strains

Ann Arbor, Mar 16, 2020 ([Issuewire.com](https://www.issuewire.com)) - TransGlobal Assets Inc. (OTC: TMSH) Provides Pain Relief and Support For Depression With Two New Cannabis Strains

Monster Elixir a wholly-owned subsidiary of TMSH is pleased to announce that it has developed two new medical-grade cannabis strains that are Sativa-dominant hybrids, that brings unique attributes to medical patients. The first strain is referred to as, **BB**. Attributes include relief from symptoms of depression, stress & muscle spasms.

The second strain referred to as **MV**, benefits include support for insomnia, anxiety and pain relief.

Both strains are 100% organically-grown without the use of chemicals. Monster Elixir crosses top-level genetics with the best cannabis strains.

"We create our products with the very best, organically-sourced medical-grade cannabis for the maximum effect," says Curtis Philpot, CEO of TransGlobal Assets. He continues, "We are excited and look forward to developing a growing affinity for our cannabis products, as customers add us to their pain-relief regiment as well as for coping with depression and other ailments."

Updates will be forthcoming
