

Unleash the True Power of an iPhone with Ampr iPhone Battery Case

Munich, Mar 4, 2020 ([Issuewire.com](https://www.issuewire.com)) - Have you heard of Ampr iPhone Battery case? If not, it is high time you did, as the powerful battery case from Ampr.store comes to clarify the global needs of iPhones users who want to achieve a smart digital life.

Earlier today Ampr, a German brand specialized in accessories and technologies is thrilled to announce to the general public about the launch of its [iPhone Battery case](#) that enables iPhone users to maintain adequate battery life. The premium product is currently available for purchase on the company's website.

Anyone that owns an iPhone understands that battery issues can never be foreseen. One day everything can be working fine and the next morning you can wake up to notice a faulty battery on your

iPhone. Ampr fully understands this plaque, therefore they have unleashed a powerful iPhone battery case. If it's an utter luxury you're after then look no further than Ampr iPhone battery cases.

In a digital age where most things are made convenient and formidably on point, a blistering device comes to clarify the global needs of iPhone users, who find it difficult to achieve a 24/7 power. The well-built battery case from Ampr is now the perfect solution for this. All the features of the iPhone battery case were developed towards one goal – (Maximum battery life).

In a recent press release interview the CEO of Ampr, **Daniel Mansfeld** commented "iPhone's batteries range from between 3,110 to 3,500 mAH and if you are one of those who take full advantage of this spontaneous technology created by Apple, you will have to charge your phone frequently. As if this was not enough, iPhone is delicate phones. Use them without a case, and soon you will have to pay for expensive replacements such as a broken screen. We ourselves have experienced that situation. That's why we set out to solve it".

"Our iPhone battery case in the future and just the tip of the iceberg to what the future holds for us all. We are here to always provide our consumers with the best ever technology that will allow them to enjoy all the best services their iPhone can provide". He added.

With the new Ampr iPhone Battery case users will enjoy:

5,000 mAh extra for your iPhone 11: almost double its original charge.

Additional 4,100 mAh for your iPhone X: almost triple its original charge.

A bumper: protects your device from shock.

Reduced weight: 113 grams in exchange for an additional 20 hours of video or 80 hours of music

Amazing design: minimalist lines, on/off control and superb grip.
