Preston, Mar 2, 2020 ([Issuewire.com](https://www.issuewire.com)) - Enter our online competition for a chance to win one of our beautiful garden logburners

<https://vestastoves.co.uk/win-a-fieta-garden-stove/>

The Fiesta garden stove from Vesta Ironworks. The stylish garden log burner "Fiesta", is designed to fit

perfectly with modern gardens and contemporary pavilions. The large firebox is fully lined with firebricks and has a built-in grate allowing spent fuel and ash to fall through into the collection box ready for quick and clean disposal. Made from rugged steel plate and treated with a high-temperature silicone coating, the Fiesta is built to last. Producing a massive 25KW of heat the Fiesta will keep you and your guests warm long after the sun goes down. Each Fiesta comes complete with a half metre flue section and requires no assembly. It is fully seam welded so you can rest assured that your Vesta Fiesta pavilion stove will outlast chimenea's and gas patio heaters.
