

## Berlin's first alcohol-free Zeroliq Bar serves wine, beer and cocktails without the buzz

The very first AF bar in Germany serves booze-free beer, wine and cocktails

0% ALCOHOL  
100% FUN

**Berlin, Apr 24, 2020 ([IssueWire.com](https://www.issuewire.com))** - Zeroliq Bar opened its doors exactly two days before the corona shutdown. Who knew that those surreal times would come? Now the guests are excited about the reopening of this special bar. Whether you just want a new hangout spot, you have committed to living a sober lifestyle or you are practicing a dry month, the new and first booze-free bar in Germany welcomes you in the center of Berlin.

The unique bar is the coming spot for grown-up people being sober curious and gourmets interested in discovering new exquisite tastes. Zeroliq offers a wide range of alcohol-free drinks. You will find more than thirty non-alcoholic craft beers, cocktail lovers find a variety of well-known drinks as the "Jamaica cane" with alcohol-free Jamaican rum but also unusual cocktails whose names remind of desserts – "Chocolate & Coffee" or "Carrot Cake".

But why are there only a few wines on the menu? Generally, when alcohol is removed from wine, it often results in loss of quality. Not much European winegrowers have mastered the art of alcohol-free wine. Zeroliq presents a selection of premium wines that have been gently dealcoholized and exceed quality standards.

“Zeroliq Bar is a beacon for anyone in Berlin looking for an alcohol-free alternative. Whether you have cut alcohol out or just cutting back, we show you that alcohol-free does not need to be synonymous to ascetic lifestyle. In contrary discover something new in our cozy and chilling atmosphere.” said Peter on behalf of the Zeroliq bar.
