

Birla Brainiacs - Million Lights TV come together to offer free classes for K-12 students

Mumbai, Apr 23, 2020 ([IssueWire.com](http://www.IssueWire.com)) - The on-going pandemic has called for the current educational system to adopt extraordinary measures. The Birla Brainiacs app, during the pandemic, has pledged to give access to their live classes to school students up to grade 12 or any school that wants to use its platform to teach online as per their academic plan using their Amazon servers free of cost.

Birla Brainiacs is an e-learning platform that offers effortless learning through Flip Tales and promotes collaborative learning. In an attempt to reach out to millions of students, Birla Brainiacs has partnered with Million Lights TV and will be broadcasting on their channel on JioTV and also offer content via JioChat.

Shwetank Upadhyaya, CEO of the Birla Brainiacs app, strongly believes that the Birla Brainiacs' unique platform and modified learning solutions provide a much-needed solution to capture the short attention span of the new-age learners. The app also aims to bring affordable personalised education to every student in India.

He also confirmed that the Birla Brainiacs App will continue to extend its help to students during their self-study time even after than Pandemic is over.

Mr Akshat Shrivastava, Million Light's Founder and CEO, mentioned that the Edtech industry is doing a great job of providing equal opportunity to every student irrespective of his/her geographical location. He emphasized that the goal of Millionlights is to give affordable access to the best education content to every learner across India and partnering with Birla Brainiacs further extends the benefits of Millionlights TV to millions of students who watch the channel.
