

CarePrecise LLC Supplies Provider Data to Frontline COVID-19 Responders

Company plays a vital role in pandemic staffing

Tulsa, Apr 6, 2020 ([IssueWire.com](http://www.IssueWire.com)) - CarePrecise LLC has maintained the most comprehensive database of U.S. health care providers (HCPs) and suppliers since 2008. In this moment of crisis, we are lending our data assets and expertise to the efforts so many are undertaking to find physicians, nurses, and technologists to help stem the tide of the COVID-19 pandemic. Specifically, the program provides a 40% price reduction on any product or service to those engaged in first line defense against the virus. CarePrecise data sets include the more than 1 million practicing physicians, and nearly 5 million nurses, physician extenders, and techs, organized by specialty, geography, and clinical affiliations.

The expertise represented includes Intensive care/ICU physicians, Immunology, Immunopathology, Infectious Disease, Pulmonary Disease, Respiratory Therapy, Pulmonology, Pulmonary Diagnostics, and all other enumerated professional specialties and subspecialties. Datasets include hospitals, community and public health agencies and specialists, Federally Qualified Health Center (FQHCs), Critical Access Hospitals, and VA Hospitals. Data can be downloaded for individual states, or for the whole country. The CarePrecise Gold and CarePrecise Platinum datasets also include historical data, useful for contacting retired HCPs. With this program, pricing starts at \$72. We have created a six-month subscription option for qualified organizations, to allow them to access recently enumerated or reactivated providers every month.

Current counts of numbers of providers by specialty and state can be found at this link:

https://www.careprecise.com/healthcare_provider_counts.htm

CarePrecise databases can be compared at this link:

The discount does not extend to commercial uses. The program is currently set to expire April 30, but we will continue to monitor the need for providing information through the crisis and we may extend the program. Please visit this link to fill out the form to see whether you or your organization qualify for the reduced pricing: https://www.careprecise.com/detail_emergency_database.htm
