

Clean Nail Salons Take The Pledge

Nail Salons Across The World Invited To Take The Pledge of Cleanliness

Beverly Hills, Apr 24, 2020 (Issuewire.com) - Clean Nail Salons Pledge was created by the Founder of Footnanny Brand and celebrity nail technician, Gloria L. Williams. Throughout the past 27 years, Gloria has been known and praised publicly for providing some of the most sanitary, as well as, luxury pedicures/manicures to A-list Celebrities such as Oprah Winfrey and Gayle King just to name a few. She is also known for her extreme level of Power Sanitation, Pedicure and Manicure Training to multiple beauty and nail salon teams across the US (ie. Mario Tricoci Salons, Macy's Nail Salons, Spa 195 Salon, Footnanny Union, Private One on One, etc.).

To create a proof of Concept, Gloria used her salon consulting skills to open Footnanny Salt Spa of Beverly Hills in October 2019 (located inside of Salon Republic Suites). The Nail Spa is a membership-based "One Client At A Time" concept surrounded by custom made Himalayan Salt Walls, custom made Belava Pedicure Thrones, Essential Oil Defusers and a custom-built Dry Salt Sauna. Footnanny Salt Spa was ahead of the sanitation game and the first nail salon to take the Clean Nail Salons Pledge! Clean Nail Salons Pledge Website <https://cleannailsalons.com/> and New App allows Gloria to proudly offer the pledge to be taken by others in the nail industry.

Clean Nail Salons Pledge can be taken by nail technicians, nail salon owners and spa owners that want to showcase their cleanliness procedures that are used while providing services to their customers. Taking the pledge also promises that the guidelines for their individual state in regards to disinfecting, sanitizing and sterilization procedures are 100% followed. After taking the pledge they will receive a certificate of completion and a window decal to aid in marketing their business to consumers.

COVID-19 has created a need for a digital platform such as the Clean Nail Salons Pledge to highlight nail salons, nail technicians and spas who go the extra mile by investing in the required training, along with the state-required Essential/Non-Essential entry gear (ie.masks, gloves, sanitizers, etc.) for their clients safety and well-being during their much-needed manicure or pedicure services. Gloria L. Williams and Janet McCormick co-owner and founder of Nailcare Academy an online education academy for nail technicians and a nail technician have joined together to draw attention to the need for all nail technicians to meet the NEW needs of their clients. Gloria believes that Janet's online courses are the best along with her course development skills. Courses can be taken online at <https://www.nailcare-academy.com/>, an advanced education site for certifying nail technicians to work safely on all clients, but especially those with chronic illnesses.

Taking the pledge is FREE for the professional! There is also a FREE Search and Review section for the consumer in need of finding the nail salon or spa in his or her area that has taken the Clean Nail Salons Pledge and leave a 5-star review after receiving their service. Consumers are encouraged to ask their favorite nail salon, nail technician or spa to take the pledge via Private Email Blast and Social Media Marketing which is sponsored by The Clean Nail Salons brand and their brand partners, Belava, DRAF, Earth's Nectar Hair Care, Footnanny Union, PediCredit, Gloria's Love, Hands-on Trade Association, James Wealthy Systems, Nailcare Academy, SPLY Dsgn, Oldvine Florals, DJ Taxi, 587 FM Radio, DLashes, Mavens Lists, Platinum Star PR, Robbi Rogers Hair, Soft Landings Towels and Watergraphics.

Media is buzzing for a great way for consumers to find the help they need and Clean Nail Salons Pledge is the answer!
