

GridPlus Energy Offers Temporary At-Cost Electricity Pricing During COVID-19 Pandemic

Houston, Apr 2, 2020 ([Issuewire.com](https://www.issuewire.com)) - GridPlus Energy is offering Texas consumers a special 12-month energy plan to address the financial needs of consumers during the COVID-19 pandemic. Through June 2020, GridPlus Energy's **COVID-19 Relief** plan offers a reduced energy rate meant to only cover the estimated wholesale energy costs, with zero markups, to provide short-term financial relief to customers.

Texas households are currently facing financial uncertainty resulting from measures designed to slow the spread of COVID-19. At the time of publishing, GridPlus Energy already offers some of the lowest fixed price 12-month contracts available in the CenterPoint and Oncor utility regions of Texas. With consumers tightening their budgets, GridPlus Energy's **COVID-19 Relief** plan provides additional alleviation on an essential service. During these difficult times, GridPlus Energy is offering the **COVID-19 Relief** plan as a means of sharing the burden with customers and eliminating plan profits through June 2020.

In addition, GridPlus Energy customers who have experienced economic hardship during this time may be eligible to enroll in the "[COVID-19 Electricity Relief Program](#)", implemented by the Public Utility Commission of Texas on March 26th, 2020.

GridPlus Energy is dedicated to building lasting relationships with its customers and making a positive impact on the communities it serves. For detailed information on all of GridPlus Energy's plan, visit GridPlusEnergy.com.
