

Jeremy Groll, MD, a Reproductive Endocrinologist with SpringCreek Fertility

Get to know Reproductive Endocrinologist Dr. Jeremy Groll, who serves patients in Centerville, Ohio.

New York City, Apr 1, 2020 ([Issuewire.com](http://www.Issuewire.com)) - Dr. Groll, a reproductive endocrinologist, is currently

the Medical Director and Managing Partner at SpringCreek Fertility, the only independent, full-service fertility center between the Dayton Metropolitan area and Toledo Metropolitan area. The center strives to offer evidence-based, patient-centered fertility treatments for anyone wanting to continue to build their family. Fertility treatments and preservation are priced for accessibility and tailored to meet family goals.

At present, Dr. Groll is on clinical faculty with Southview Hospital Residency and Wright State University Residency. He is affiliated with several medical centers and hospitals in the local area, including Kettering Medical Center and Miami Valley Hospital.

Prior to his current endeavors, he served as the Medical Director at Kettering Reproductive Medicine, Chief Division of Reproductive Endocrinology and Infertility at 88th Surgical Operations Squadron at Wright-Patterson AFB in Ohio. He was also an Assistant Professor at Wright State University Boonshoft School of Medicine in Dayton, Ohio, as well as an Editorial Reviewer for the journal Fertility and Sterility.

Throughout his academic career, Dr. Groll received his medical degree with honors from the Wayne State University School of Medicine in Detroit, Michigan. He then went on to complete both an internship and residency in obstetrics and gynecology at Wilford Hall Medical Center Lackland AFB in Texas, followed by his fellowship in reproductive endocrinology at the University of North Carolina, Chapel Hill.

A Fellow of the Society for Reproductive Endocrinology and a member of the American Society for Reproductive Medicine, the doctor is double board-certified in reproductive endocrinology/infertility & obstetrics and gynecology. He has been published in several medical journals, including Fertility and Sterility, ASRM Journal, and the Journal of Clinical Endocrinology and Metabolism.

Reproductive endocrinology and infertility (REI) is a surgical subspecialty of obstetrics and gynecology that trains physicians in reproductive medicine addressing hormonal functioning as it pertains to reproduction as well as the issue of infertility. Reproductive endocrinologists offer patients' a number of services, including IVF, IUI, egg preservation, ovulation induction, saline sonograms, laparoscopy, and hysteroscopy.

In his spare time, Dr. Groll enjoys spending time with his family, fine dining, art, traveling, barbequing, making ice cream, running, wrestling, and Notre Dame football.
