

John F. Lenway II, RN, a Registered Nurse with Charter House - Mayo Clinic Retirement Living

Get to know Registered Nurse John F. Lenway II, who serves patients in Rochester, Minnesota.

New York City, Apr 22, 2020 ([Issuewire.com](https://www.issuewire.com)) - John is a registered nurse who serves as the Staff Nurse at Charter House - Mayo Clinic Retirement Living in Rochester, Minnesota. With a specialization in rehabilitation nursing, he floats to the assisted living and supportive services floors when needed.

As a leading, not-for-profit continuing care retirement community for more than 30 years, Charter House - Mayo Clinic Retirement Living has been the choice for those who value an active and independent lifestyle, as well as the convenience of maintenance-free living. It combines thought leadership on healthy aging as the only senior living community owned and operated by the world-renowned Mayo Clinic. The mission of Charter House is to create and sustain an innovative, vital, and caring community for older persons served by passionate and dedicated staff so that it is a preferred place to live and work.

In the past, John has worked in the areas of medical/surgical nursing, mental health, occupational health, and hospice. Prior to becoming a nurse, he worked with developmentally disabled adults for 9 years. He realized how much he enjoyed being a nurse and after encouragement from family and friends, he decided to pursue a career in nursing.

He earned his Associate of Arts in Nursing (AAN) degree from Riverland Community College. Now, with years of experience in his field, he attributes his success to his support system and his upbringing.

A registered nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
