

Khatuna Gurgenchashvili, MD, a Neurologist with The Parkway Neuroscience & Spine Institute

Get to know Neurologist Dr. Khatuna Gurgenchashvili, who serves patients in Maryland and Pennsylvania.

New York City, Apr 7, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Licensed to practice medicine in Maryland and Pennsylvania, Dr. Gurgenchashvili is a renowned neurologist who serves as the Medical Director of Neurology at The Parkway Neuroscience & Spine Institute, which she joined back in 2011. She sees patients at the offices in Frederick and Hagerstown, Maryland and Chambersburg, Pennsylvania.

The mission of Parkway Neuroscience and Spine Institute is to provide a Center of Excellence for the diagnosis, management, and treatment of disorders of the brain, spine, and peripheral nervous systems for the communities in the tri-state region.

Specializing in general neurology services with additional expertise in the field of neuromuscular medicine and epilepsy, Dr. Gurgenchashvili tends to patients with a wide variety of neurological problems such as epilepsy, neuromuscular disorders, headaches, sleep disorders, cerebrovascular disorders, multiple sclerosis, and pain.

An associate member of the American Academy of Neurology, the doctor is board-certified in neurology by the American Board of Psychiatry and Neurology, which is a not-for-profit corporation dedicated to promoting high-quality patient care for the public through the initial and continuing certification of psychiatrists and neurologists. She is also an active member of the American Clinical Neurophysiology Society, the American Epilepsy Society, and the American Association of Neuromuscular and Electrodiagnostic Medicine.

A graduate of AETI Medical School, Dr. Gurgenchashvili completed her internal medicine training at Hahnemann University Hospital in Philadelphia and her neurology training at Drexel University College of Medicine. She was a member of the parkway family until 2016 when she left the practice temporarily to pursue a fellowship in neurophysiology at Penn State Health Milton S. Hershey Medical Center, where she has stayed as a part-time faculty member.

Neurology is a branch of medicine dealing with disorders of the nervous system. Neurologists are licensed medical specialists who diagnose and treat disorders that affect the brain, spinal cord, nerves, and muscles of patients. They examine a patient's mental and physical status, conduct medical tests and scans, and evaluate the results to diagnose and treat the patient.

Outside of the office, Dr. Gurgenchashvili enjoys spending time with her husband and two daughters.
