

Khurram S. Rehman, MD, Reproductive Endocrinology and Infertility Specialist with Overlake Reproductive Health

Get to know Reproductive Endocrinology and Infertility Specialists Dr. Khurram S. Rehman, who serve patients in Bellevue, Washington.

New York City, Apr 10, 2020 ([Issuewire.com](https://www.issuewire.com)) - Dr. Rehman is a board-certified reproductive endocrinology and infertility specialist with Overlake Reproductive Health in Bellevue, Washington. “Our expert providers offer comprehensive yet highly individualized boutique care in both conventional and assisted reproductive technology (ART). We practice a team approach to medicine at Overlake Reproductive Health. Our fertility specialists collaborate together in order to ensure that all of our patients receive the same high level of care. Your treatment will be customized to meet your specific clinical, emotional, and financial needs.” as stated on the practice’s website.

Dr. Rehman joined the growing family at Overlake Reproductive Health in August of 2007.

“As a reproductive endocrinology and infertility specialist, I’m aware that we not only provide the latest medical and scientific advancements in fertility treatment to our patients, but we’re helping them to start or grow their families. I aim to provide personalized care and to help guide our patients through the challenges that they face. It’s a great privilege to see many of them achieve their goal of parenthood.” he stated.

The doctor is board-certified in obstetrics and gynecology & reproductive endocrinology and infertility by the American Board of Obstetrics and Gynecology, a non-profit organization that provides board certification for practicing obstetricians and gynecologists in the United States and Canada.

On the subject of his educational background, Dr. Rehman graduated with his medical degree from St. George's Hospital Medical School at the University of London, England, where he also earned his Bachelor of Science degree in Basic Medical Sciences with Pharmacology. He completed his residency in obstetrics and gynecology at the University of Michigan Medical School in Ann Arbor, followed by his fellowship in reproductive endocrinology and infertility at the University of Texas Southwestern Medical Center in Dallas, before practicing in the North Dallas area for two years.

A member of the American Society for Reproductive Medicine, the American College of Obstetrics and Gynecology, the Washington State Medical Association, and the Norman F. Miller Gynecologic Society, he has presented research on scoring the quality of human embryos at the American Society for Reproductive Medicine Annual Meeting. This work was published in a national medical journal in 2007.

Reproductive endocrinology and infertility (REI) is a surgical subspecialty of obstetrics and gynecology that trains physicians in reproductive medicine addressing hormonal functioning as it pertains to reproduction, as well as the issue of infertility. REI specialists are the only doctors trained in providing fertility treatments using assisted reproductive technologies (ART) such as in vitro fertilization (IVF) and egg freezing. They are also trained in obstetrics and gynecology, and then have additional training to provide fertility treatment.
