

Laura I. Rankin, MD, a Nephrologist with Kidney Specialists of Central Oklahoma

Get to know Nephrologist Dr. Laura I. Rankin, who serves patients in Oklahoma City, Oklahoma.

New York City, Apr 10, 2020 ([Issuewire.com](https://www.issuewire.com)) - Specializing in the care and treatment of the kidneys, Dr. Rankin has been with Kidney Specialists of Central Oklahoma since its establishment in 1996. Now recognized as the largest private practice kidney specialist group in Oklahoma, its mission since the beginning has been to provide compassionate, state-of-the-art medical care and education to patients with kidney disease.

Among her multiple clinical and academic roles, Dr. Rankin serves as a Clinical Professor of Medicine at The University of Oklahoma Health Sciences Center and as the Medical Director of Hemodialysis at Integris Baptist Medical Center. She also serves on the Board of Directors and the Medical Advisory Committee at ESRD Network 13, and on the teaching faculty at Great Plains Family Medicine Residency Program in Oklahoma City. She is the former Medical Director/CEO of Dialysis Specialists of Central Oklahoma.

The doctor is affiliated with dialysis centers located around the Oklahoma City Metro and the following hospitals: Integris Baptist Hospital, Integris Deaconess, Integris Health Hospital, Integris Canadian Valley, Integris Southwest Medical Center, and Select Specialty Hospital.

Her acclaimed career in medicine began in 1973 when she earned her medical degree from the Baylor College of Medicine in Houston, Texas. She then went on to complete her residency in internal medicine and her fellowship in nephrology at Indiana University Hospitals.

Before long, Dr. Rankin became board-certified in both internal medicine and nephrology by the American Board of Internal Medicine, a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Nephrology is a specialty of medicine and pediatrics that concerns itself with the kidneys. It is the study of normal kidney function and kidney disease, the preservation of kidney health, and the treatment of kidney disease, from diet and medication to renal replacement therapy. Nephrologists have advanced training in treating kidney disease. They diagnose and treat kidney failure, as well as help patients by prescribing medications, offering special diet advice, and coordinating dialysis care when the time comes.
