

Manuel Ros lead FINSOR growth to New York.

FINSOR have the capacity to be one of the dynamic financial entity, USD 20 Billion is the value achievable.

New York City, Apr 20, 2020 ([IssueWire.com](https://www.issuewire.com)) - *The Italian Holding's Founder confirms his leadership capacities with the recent expansion he offered to its corporation, implanting the impressive headquarter in Manhattan.*

Just a few years ago, Manuel Ros, 42 years old, Founder and Chairman of its business wallet identified as FINSOR, was publishing the first significant achievement founding the operational headquarter in Dubai, inside the Tallest Tower in the world Burj Khalifa.

Today the confirmation of the continued growth comes from the announcement that sees once again Manuel Ros improve his leadership results characterized by an important decision to move FINSOR HOLDING headquarter to New York. Behind this decision, there are many points, confirm its Founder, that declare being probably the best reshape he desired for his business structure.

"FINSOR is not anymore a classic holding company, but its evolution, makes today the corporate a leading financial entity, where other requirements took place," said Manuel Ros, that has the intention to transform the whole company into an institution.

The vision is confirmed by the move he executed concerning the office structure. He decided to install FINSOR in New York, creating a headquarter over eight floors for a global surface of 310.000 sqft. The structure will host more than 100 departments, representing an investment of USD 230 Million necessary to realize the entire worldwide holding office. Over 1,650 staff will be present having the mission of managing the whole business activities promoted by all single subsidiaries all around the globe.

The headquarter is create inside the prestigious and iconic tower named "One World Trade Centre" from the 65th floor, where an impressive reception receives all external visitors, up to the 88th floor. The highest level is reserve to be the personal Chairman floor, where Manuel Ros will be personally setting surrounded by a luxury atmosphere with an open view from the Statue of Liberty to Manhattan skyline, surfing throughout the Financial District.

"FINSOR in New York represents the intention to transform a holding company into a financial institution," with this expression the Chairman, consider New York the world's financial capital, capable of offering more opportunities for growth. *"I've created strong partnerships before making this decision. FINSOR has the support of major corporate banks and financial entities operating with FINSOR to favorize positive results,"* said Manuel Ros.

More than 8,000 staff will be present once the full reshape will be complete between all companies established worldwide. The subsidiary's body represents six companies, one to operate in a different industry. FINSOR also promotes direct investment activities, through FINSOR FUND, appointed to collecting equities from external prime investors.

Analysts said that FINSOR would acquire a value of over USD 20 Billion as soon as all activities forming the firm, will be activated and fully operative. The plan of growth sees as well another significant step.

By 2025, Manuel Ros, intent listing public FINSOR HOLDING over the NYSE in New York, giving to its

business holding a considerable boost that will affirm his entrepreneurial abilities.
