

Meet Roshan Nane, the Co-Founder of EDIIFY & Latest News Suno

Mumbai, Apr 26, 2020 ([Issuewire.com](https://www.issuewire.com)) - All of us utilize devices daily, whether it is for studies, work or leisure. Everybody uses hooovers, smartphones, computers, and lighting. A few years ago, people would have asked exactly what a light-bulb had to perform using the Digital World. But now, all digital devices can be linked and controlled through an internet connection. **The Internet of Things makes life easier, right?**

Along with this change, just image the World without Laptops, Mobile Devices & Social Media. The significance of social media is seen because it provides value while also creating a way to market your business. Additionally, Social Media & Digital Marketing allows you to have direct control over the world of messages, networking, marketing, branding, and many more.

The 21st century exposes and brings us into the world of technology. Every firm, be it small or big is fixing up with technology and online services. To grow business and acquire the targeted success, industries are trying to mingle up with digital marketing.
