

New Sutherland Shire Swimming Pool Repair & Maintenance Company: Pool-Fix Sydney

Pool-Fix Sydney has launched its new swimming pool repair, cleaning & maintenance service into the Sutherland Shire region. Family owned & operated with experienced tradespeople.

Sydney, Apr 5, 2020 (Issuewire.com) - Pool-Fix Sydney has announced the beginning of its new swimming pool repair & maintenance service based in the Sutherland Shire. The new service has been operating since the end of 2019. The main aim is to provide a family run service that promises to keep rates down while putting customer service first... But it does so, with a difference.

Stafford West, Owner/Operator at Pool-Fix Sydney, says: "We wanted to try something new with our swimming pool repair, cleaning & maintenance service. Anyone familiar with the swimming pool services market will probably have noticed that many are largely national businesses or franchises that have large overheads. This is a problem because franchise fees generally result in higher for customers. Instead, Pool-Fix Sydney is able to provide affordable rates without any franchise overheads."

So as a welcome breath of fresh air, Pool-Fix Sydney only employs qualified and licensed tradespeople that includes a qualified carpenter on the team. As a family-owned and operated business, we provide

an individual and personal service. Stafford West of Pool-Fix Sydney chose to establish his swimming pool maintenance company after noticing how many franchises there were. Stafford saw just how much each franchise owner needed to earn before they could make a profit. As a result, Pool-Fix Sydney was set up to provide a more competitive rate than most franchises can afford to offer. It also means Pool-Fix Sydney can give more time and personal attention to their clients.

Owner Stafford West also said "We want to give our customers both our repair and maintenance service and a one-stop-shop for all their swimming pool repair and maintenance needs. With one service that is affordable and offers a personal service, our customers can spend more time enjoying their swimming pool and less time worrying about the contractors fixing it. With our new swimming pool repair, cleaning & maintenance service, they have a fresh new possibility. We want them to know that for Pool-Fix Sydney, our aim is to ensure our customers are relaxed knowing they can enjoy their swimming pool without any worries when using our service."

Pool-Fix Sydney has recently rebranded from SWPS Pool Services. Stafford West has been fixing and maintaining swimming pools for over 10 years, with Pool-Fix Sydney having been established in 2019. Since Day 1 Pool-Fix Sydney has always aimed to provide the best swimming pool cleaning, repair and maintenance service in Sydney's south.

The reason Pool-Fix Sydney rebranded was that we felt that the new name "Pool-Fix Sydney" represented our business and service offerings better.

The new swimming pool repair & maintenance service has already launched successfully. To find out more about the service and Pool-Fix Sydney, it's possible to visit <https://poolfixsydney.com.au> or follow Pool-Fix Sydney on [Facebook](#).
