

Paramus NJ UltraPro Pest Control Disinfects and Sanitizes Facilities Against COVID-19

Paramus, Apr 2, 2020 ([IssueWire.com](https://www.IssueWire.com)) - UltraPro Pest Protection professionals are responsible for protecting NJ and NY businesses and homes against insects, rodents, spiders, birds, and other animals that can damage property and threaten people's health through the spread of disease and bacteria, in addition to inflicting painful bites and stings. This includes commercial operations such as healthcare facilities, food wholesale and processing facilities and more.

But UltraPro can also guard against COVID-19. "We're disinfecting and sanitizing customer facilities, including schools, restaurants, office buildings, commercial accounts, and food processing right now," says founder, Bob Suriano. "We use a product designated as a disinfectant, sanitizer and virucide." It is a concentrate of four active ingredients (quaternary ammonias) and is diluted before use. It contains the following active ingredients: Octyl Decyl Dimethyl Ammonium Chloride 1.65% Didecyl Dimethyl Ammonium Chloride 0.825% Dioctyl Dimethyl Ammonium Chloride 0.825% Alkyl Dimethyl Benzyl Ammonium Chloride 2.200%. Labeled to kill Hantavirus, E. Coli, Hepatitis B and C, Avian flu, staph, strep and many other viruses and bacteria.

UltraPro Pest Protection believes that as we work together we can better understand and offset the infestation of pests. As protectors of public health, homes, food, and property, we take our role in safeguarding your quality of life very seriously.

If you have questions about your periodic service or are experiencing a pest control problem please call 201-857-3004. Paramus, New Jersey-based [UltraPro Pest Protection](#) makes your service experience simple and straightforward, providing the protection you want when you want it.
