

Prance Gold launches PGA System; A Readily Available, Low Risk Investment Platform

Zurich, Apr 2, 2020 ([IssueWire.com](https://www.issuewire.com)) - Jacob Coulsen is the Chief Operating Officer of Prance Gold and the head of the company's trading and research and development departments. In his early years at JP Morgan Chase, Jacob studied in-depth digital assets for many years. He once served as the company's Chief Director of the trading team and managed \$6 billion worth of funds; amassing a large amount of wealth for the company. He has an in-depth understanding of various cryptocurrency assets and is proficient in futures investment portfolios. He has more than 10 years of experience in financial instruments in the field of financial investment. Mr Coulsen has since made a large impact since joining the company.

Jacob Coulsen championed the R & D department and developed the original PRANCE GOLD ALGO (PGA) artificial intelligence triangular arbitrage system. This is a high-speed, cutting-edge trading program developed for three-way cryptocurrency trading. It runs the data of three transactions through the PGA algorithm to capitalise on price differences. This is the world's first triangular digital currency trading system. PGA is fast and reliable and most importantly allows users to withdraw their capital at any time.

The PRANCE GOLD ALGO (PGA) system is a testament to the company's abilities. PGA has the ability to process trades even during times of high-volume usage and does not slow the speed of transactions that are taking place. The system uses a three-party matching order mechanism where three different arbitrage directions can be automatically matched; orders that cannot be matched locally will be sent to global exchanges. This unique advantages put the PGA system at the forefront of investment instruments and is a very safe and relatively risk-free investment option.

Prance Gold would like to thank all clients for their continued support in light of the recent global Coronavirus Outbreak. The company is working tirelessly to constantly improve the user experience as it looks to provide all clients with the utmost level of service. The company is full of confidence and plans to expand into North America, Europe, Southeast Asia Set and Greater China; this will extend the scope of the company's service as it looks to reach out to its' global community of users.
