

Springfit to produce & donate 2 lakh face masks amid COVID-19 pandemic

Springfit is a domestic leader in the bedding industry. Currently owns 3 manufacturing plants in India and a corporate office in Delhi N.C.R

Haridwar, Apr 2, 2020 ([Issuewire.com](https://www.issuewire.com)) - Springfit mattress is producing & donating 2 lakh face masks to support healthcare & other essential service workers across the country who are at the frontline battle against the COVID-19 global pandemic.

The company announced that the first batch of production has already begun with the aim of manufacturing 2,00,000 surgical face masks from its Coimbatore Factory, and will start donating soon to anyone who needs them, with the priority given to those who work in the medical or essential services.

“Our thoughts and prayers are with the ones suffering from this pandemic and with the fearless healthcare workers who are caring for them 24X7. In the present circumstances, we will be making around 2,00,000 surgical masks in a month that will be donated across the country. We are also planning to have our 2 other factories follow the Coimbatore factory’s lead for the next several days. We are making the best possible use of our company’s significant manufacturing capacity to provide our community with surgical masks. I believe if all the MSME come together and help the country in such situation we don’t have to look back for the issues what we are facing today ” Say Springfit’s Director, Mr. Nitin Gupta.

Also, to help ensure the supply to meet the continually increasing demands of the face masks over the next several weeks, Springfit will look to increase production.
