

Adulaiti Adili, MD, an Internist & Hospitalist with Memorial Medical Center

Get to know Internist & Hospitalist Dr. Adulaiti Adili, who serves patients in Modesto, California.

New York City, May 2, 2020 ([Issuewire.com](https://www.issuewire.com)) - As a board-certified internist & hospitalist, Dr. Adili is

interested in many areas relating to his field, including internal medicine, inpatient management of cardiopulmonary diseases, cardiovascular diseases, hematological and oncological diseases, inflectional diseases, gastrointestinal disorders, acute kidney diseases, endocrine disorders, and substance abuse/withdrawal.

He is affiliated with Memorial Medical Center in Modesto, California. It is licensed for 423 acute care beds and is affiliated with Sutter Health, a not-for-profit association of medical service providers.

"I enjoy working with patients to help them understand their health issues. Working in collaboration with patients enables them to make informed health care choices. Utilizing the latest data and evidence-based medicine in an individualized and patient-centered approach creates the most conducive environment for achieving the best outcomes in the context of a person's desires" as stated by the doctor.

His acclaimed career in medicine began after he earned his medical degree from Peking University Health Science Center in Beijing, China. Upon relocating to the United States, he went on to complete his internship and residency in internal medicine at Good Samaritan Hospital in Cincinnati, Ohio.

With a passion for his profession, Dr. Adili is board-certified in internal medicine by the American Board of Internal Medicine, a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world. He is also a member of the American Medical Association and the American College of Physicians.

Internal medicine is the medical specialty dealing with the prevention, diagnosis, and treatment of adult diseases. Physicians specializing in internal medicine are called internists. They manage and prevent common and complex diseases by providing comprehensive care and promoting overall well-being.

Hospital medicine is a medical specialty that exists in some countries as a branch of internal or family medicine, dealing with the care of acutely ill hospitalized patients. Physicians whose primary professional focus is caring for hospitalized patients only while they are in the hospital are called hospitalists.

Outside of practicing medicine, Dr. Adili enjoys spending time with his family, fishing, hiking, and gardening. In addition to English, he is fluent in Mandarin and speaks basic Turkish.
