

Backster School of Lie Detection Now Offering Virtual Online Training

Supporting Polygraph Examiners Through COVID-19

Kingston, May 6, 2020 (IssueWire.com) - Limestone Technologies Inc. and the Backster School of Lie Detection announced today that they will now be offering a series of online virtual training sessions. In light of state and national training seminars being cancelled due to COVID-19, The Backster School of Lie Detection will be conducting online training with continuing education credits to ensure polygraph examiners are able to acquire their CE hours in 2020.

“With over 60 years of polygraph training experience, never before has our industry faced such unprecedented uncertainty. Polygraph is a critical component of public safety and it is essential that examiners stay up to date on the most validated polygraph techniques. This global pandemic has impacted polygraph examiners all around the world. We are proud to support polygraph examiners during this challenging time by adapting our traditional in-class teaching methods to abide by physical distancing requirements. We are proud to lead the way and embrace this new platform of online education.” – James Brown, President and CEO

Features and benefits of Backster’s online virtual training include:

- 2 CE credits per course
- APA certified instructors
- Wide selection of topics to choose from

Online virtual training courses are now available for \$100/course or 3 courses for \$250. For more information visit us online at Backster.net

About Backster School of Lie Detection: The Backster School of Lie Detection was founded in 1959 by world-renowned polygraph examiner and researcher, Cleve

Backster. Cleve’s contributions to polygraph were immense and his legacy lives on today. In 2017, [Limestone Technologies](http://LimestoneTechnologies.com) acquired the Backster School of Lie Detection to continue the work of Cleve Backster in polygraph education. Our [combined staff](#) of instructors have over one hundred years of polygraph experience and have conducted thousands of polygraph examinations. We are experienced in conducting polygraph courses at our home offices in Kingston, Ontario as well as international locations around the world.
