

Car Upholstery Leather- One of The Best Manufacturers of Car Upholstery Fabric, Auto Veiling Fabric, & Others

Professional Supplier of Automotive Leather for After Market

Quanzhou, May 22, 2020 (Issuewire.com) - Car Upholstery Leather (Winiw International Co., Limited.) is a leading manufacturer of car seat upholstery fabric and automotive vinyl leather that is devoted to providing the optimal leather options, the best leather substitute, and best leather alternatives for its respected customers from all over the world. The company provides the optimal leather options, the best leather substitute and alternatives for automotive seat covers and interiors, furniture & sofa upholstery, footwear and shoes, bags, garments, gloves, balls, and many others. And they also provide a variety of types of upholstery fabrics including vinyl upholstery material, Nappa leather fabric, faux leather material, faux Nappa leather and, many others for different types of the car roof lining, car headlining, car interior and car seats.

Generally, car upholstery comes in several different types ranging from basic cloth and fabric to a wide range of leather in luxury vehicles. Winiw International Co., Limited provides different types of leather substitutes including Nappa leather, [Dakota leather](#), Faux Nappa leather, and many others for car ceiling, upholstery, seats, and headlining. Dakota is rich and durable and also a scratch-resistant distressed leather that can be used for furniture, automotive, and leathercraft. They are basically used on most model's trims. Dakota is a lower grade leather, usually corrected grain or even created from the split, and coated with a synthetic polymer paint and its surface is embossed with an artificial grain.

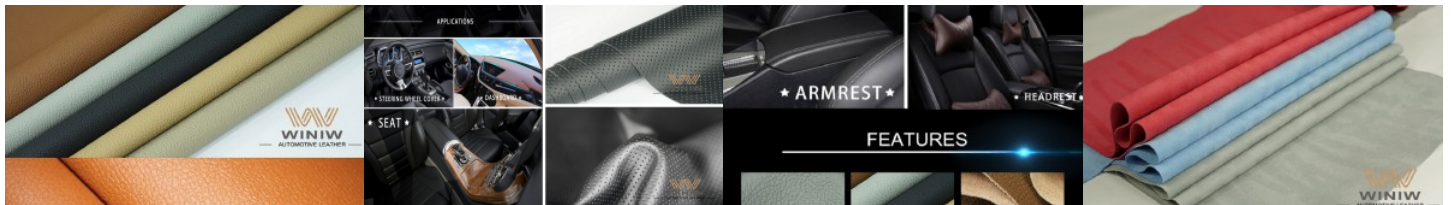

Apart from Dakota automotive leather, Winiw International Co., Limited also provides the optimal alternative of real leather and best leather substitute for replacing natural leather perfectly. They are also known as [one of the leading car upholstery fabric manufacturers](#) and suppliers that always

provide high-quality materials. The company has a wide range of products including Alcantara auto upholstery leather fabric material, suede roof lining material, auto interior upholstery fabric, auto seat upholstery material, automotive microfiber synthetic leather, car interior headliner fabric, and many others. Along with high-quality materials, the company also provides the best services and also works for long term partnership with all its customers.

Winiw International Co. limited is a one-stop destination for automotive leather upholstery fabric. The industry's Winiw microfiber leather is the highest quality grade artificial leather, PU leather, faux leather, and a high-tech simulation of high-end synthetic leather, that is perfect for [car ceiling fabric](#), and others. Winiw microfiber leather is simulated the structure of natural leather, using sea-island superfine microfiber, and high-grade polyurethane resins as raw materials, using needle punched nonwoven technology of 3D structure, has a lot of similar characters as natural leather, however, better physical & chemical performance, superior durability, has been widely popular around the world.
