Los Angeles, May 5, 2020 ([Issuewire.com](https://www.issuewire.com)) - Los Angeles, California, Release on May 1, 2020. *For Immediate Release*

One week ago, [DC Flyz](#) – the renowned American rapper, singer, and recording artist – released his long-awaited single, *Let Go*. The track featured a unique change of sound and introduced listeners to the artist's growth, to much critical acclaim.

Since he began rapping at the age of 16, DC Flyz has been known for his positive energy and desire to use his music as a platform to encourage people to believe in themselves and follow their dreams. Highlights of his work include the very successful mixtapes *Gotta Grind* (2013) and *#DC* (2016), both of which frame his visionary mindset and talent as an artist.

"Before I recorded *Let Go*, I made some very much needed adjustments in my life, and the new single is reflective of all that," says DC Flyz. "The feedback I've received so far has been very inspiring. While *Let Go* may not be on the Billboard charts yet, I'm praying, hoping, and grinding for a movie and television placement. Being an independent artist isn't as easy as it seems, but the fans make it all worthwhile and I refuse to quit."

Let Go is available on all major streaming platforms, including iTunes, Spotify, Deezer, Tidal, Pandora, and more. Learn more about DC Flyz [here](#).
