

EE&G Responds to the Covid-19 Crisis

Miami Lakes, May 22, 2020 ([Issuewire.com](https://www.issuewire.com)) - In times of crisis like the one we are experiencing, solidarity and humanity are present in many ways, and everyone gives their best to collaborate. This is the case of the [EE&G Group](#), who has always been on the community's side to make it easier to help solve the difficulties in doing so.

Who is [EE&G](#)?

The EE&G Group dates back to 1986 and has been in business for over 33 years. EE&G has built its reputation in the Environmental Industry by providing quality and diversified expertise to its clients with an array of Contracting Services including; Environmental Contracting & Construction, [Disaster Restoration](#), Air Conditioning & Mechanical Contracting Services.

EE&G is headquartered in Miami Lakes, Florida, with convenient locations strategically selected in the States of Florida and Georgia. Today, thanks to their unsurpassed customer service and its

multidisciplinary team of professionals, the EE&G brand has reached national recognition as experts in the Environmental Remediation, Restoration, and Construction Industry. Their experience is indisputable and today is recognized as experts by many institutions in the public and private sectors.

Currently, many companies are requesting their services for cleaning and disinfection of working areas, as is one specific case in South Florida, where EE&G responded to the community as soon as the COVI-19 Pandemic started by helping the City of Miami Lakes and his team of volunteers, with the sanitation, disinfection cleaning at the COHEA (City of Hialeah Educational Academy), where food delivery takes place every Friday in an effort to help the community and especially those most affected by COVID19 in the area.

“At this time of crisis we want to do everything we can to help all residents stay safe,” says one of EE&G’s employees.

[EE&G](#) is maintaining CDC guidance and cleaning protocols, in all their projects across Florida and Georgia states.

EE&G is assisting Clients to -prepare Covid-19 Disinfection Response plans for their buildings, so if and when an incident occurs, they are ready to respond and experience minimal downtime. Be conservative and be prepared, as we all will be living with the presence of this virus for the immediate future. They are working hard to assist public and private clients de such as temporary hospitals, police departments, and daycare facilities, residential buildings, hotels, and more.

If we all put our grain of sand, thinking about the common good and not the proper, as [EE&G](#) is doing, we will get out before this crisis that affects us all equally.
