"you can do it with your colleagues, peers, at home". Women and girl child abuse is a hot seat everywhere in Europe and Africa It needs acknowledgement, all hands on deck.

According to [Georgette Anawate Adeyiga](#) “if you educate a man you educate an individual but if you educate a woman you educate a whole nation “ appears to be a cliché statement but in actuality it is facts Let’s keep understanding the basic effect of education to promote awareness with our daily lives the boy child isn’t left out as it may seem to be since women are the pillars of all success, their social grounds of empowerment directly affects the masculine group in a better way. Aggression and other outrageous social personalities displayed by males can be curbed in this manner.

A quick experiment shows that data men who show aggression usually come from homes with moms who do not set their standards right. Poor decisions, not leaving an abusive partner tolerating abuse.

The necessity for women employment through basic education is really essential And you don’t need a big social platform to enforce this. For more details about Georgette Anawate Adeyiga visit our official website.
