

Husnu Evren Kaynak, MD, FACC, FSCAI, an Interventional Cardiologist with Yuma Regional Medical Center

Get to know Interventional Cardiologist Dr. Husnu Evren Kaynak, who serves patients in Yuma, Arizona.

New York City, May 8, 2020 ([Issuewire.com](https://www.issuewire.com)) - Being an experienced interventional cardiologist, Dr. Kaynak's areas of expertise include coronary artery disease, structural heart disease, peripheral vascular disease, complex coronary interventions, structural heart interventions, TAVR, ASD/PFO closure, and intramyocardial biopsy. He serves as the Medical Director of Cardiopulmonary Rehabilitation at Yuma Regional Medical Center in Yuma, Arizona.

Yuma Regional Medical Center is a 406-bed, not-for-profit hospital staffed by 2,400 employees, over 400 medical practitioners, and hundreds of volunteers who are dedicated to serving the residents and visitors of Yuma and the surrounding area. The mission of the hospital is to improve the health and well-being of individuals, families, and the communities it serves through excellence, innovation, and prudent use of resources.

On the subject of his educational background, Dr. Kaynak earned his medical degree from the Istanbul University Cerrahpasa Medical Faculty in Istanbul, Turkey. Upon relocating to the United States, he completed his residency in internal medicine at the University of Texas Health Science Center in Houston. He then went on to complete his fellowship in clinical cardiology at the University of Texas in Houston, followed by his fellowship in interventional cardiology at the University of Miami/Jackson Memorial Hospital.

In addition to being a Site Director for the Internal Medicine Rotation at the University of Arizona School of Medicine in Phoenix, Dr. Kaynak serves on the faculty for the University as a Clinical Assistant Professor of Internal Medicine.

A Fellow of the American College of Cardiology and a Fellow of the Society for Cardiovascular Angiography and Interventions, the doctor is board-certified in internal medicine, cardiovascular disease, and interventional cardiology by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who excel and strive to achieve higher standards for better care in a rapidly changing world.

Interventional cardiology is a branch of cardiology that deals specifically with the catheter-based treatment of structural heart diseases. An interventional cardiologist is a cardiologist with one to two years of additional education and training in diagnosing and treating cardiovascular disease as well as congenital (present at birth) and structural heart conditions through catheter-based procedures such as angioplasty and stenting.

On a more personal note, Dr. Kaynak is fluent in both English and Turkish.
