Nagpur, May 6, 2020 (Issuewire.com) - [IELTS - International English Language Testing System](#)

IELTS test dates | Test Format

Saturday, 16 May 2020 | Academic only

Saturday, **21 May 2020** | Academic and General Training

Thursday, **30 May 2020** | Academic and General Training

At this situation of Corona Pandemic and the nationwide lockdown in India, it is very crucial to invest time in something productive and for those who are preparing for IELTS 2020 Exams, it is very important to improve skills in all 4 modules of IELTS, i.e., Speaking, Listening, Writing & Reading. For this, a personalized IELTS training can be a blessing. Therefore Swatz Image Consulting has started offering Online Training for IELTS Preparations.

When you look for a reliable and affordable place to learn and prepare for IELTS, there can be many institutes around you, however, the problem with most education institutes is that they are either there only for business, or they can't offer personalized training due to overburden of students.

Our lead trainer Sir Abhishek Paunikar believes in **Peter Drucker's** quote: *“The most important thing in communication is to hear what isn't being said.”*

For an assured clearance of IELTS exams (becoming competitive each year), you need to get a Personalized Training while not paying a lot of money unnecessarily.

Let us explain in depth. Some of the most important factors to consider in an IELTS Exam Preparation:

- **PRACTICE!** A lot of practice - Even a Native English speaker can not get a good score in IELTS without a lot of practice. This is why you really need to practice many tests to gain the confidence of scoring high. A Personalized IELTS training helps you practice in accordance with your level and your growth potentials.
- **UNDERSTANDING THE IELTS EXAMS PATTERN!** Observe the exact pattern of the IELTS exam by going through some good test modules (available in Personalized Training). Once the whole pattern is clear to you, then you are more likely to score high.
- **Watching Native English Content!** In order to feel surrounded by English Native Speakers, it is always a good idea to be obsessed with English Web Series & Movies. Personalized training can help you gather the list of ideal content that you can acquire to encourage your English skills & make you used to it.

Additionally, a lot more than these is a part of a Personalized Training, which includes:

- The best tips and real-life practices on how to get the best performance out of you in listening without making obvious mistakes.
- Learning the best and most efficient methods of reading, in a Personalized Training.
- Handwriting Practice: while handwriting is the biggest concern for most individuals & youngsters, expression & selection of words (vocabulary) matters equally more, and you get to learn the best suitable vocabulary and writing levels with proper English grammar to be a good writer & a presentable author (a simple thing that most people learnt initially in schooling and kept downgrading over the time). Also, you learn to proofread, to double-check what you have written and to eliminate errors.
- Speaking English - it is one of the most concerning parts as it is the most primary way to express what you have in your mind and what you are acknowledging in response to what is being asked. While you speak, you not only show your English fluency but also your sense, attitude communication skills, ways of expression & your presentation. A Personalized Training grooms you and ensures you are up to the mark.

We also believe in Christopher Morley: “There is only one rule for being a good talker – learn to listen.”

Conclusively, if you are in Nagpur city and you are looking to get a PERSONALIZED IELTS TRAINING to study or work abroad, here is the one and only reliable place for all your answers:

[“Swatz Image Consulting” in Trimurti Nagar, Nagpur.](#)
