“Mother’s love is peace. It needs not be acquired, it need not be deserved.”

- ERICH FROMM

New York City, May 29, 2020 (Issuewire.com) - **Newly added to the world of amazing breast pumps - Motif Duo: quiet, compact & reliable.**

The [Motif Duo Double Electric Breast Pump](#) is another revolutionary hospital grade pump that is very

compact & without a compromise. Motif Duo is ultra-quiet, pretty small (fits in one hand), lightweight pump (less than half a pound), and can be easily operated by rechargeable batteries (lasts 2.5 hours between charges). **Motif Duo** pump also offers mummies a very safe, convenient & discreet method to provide their babies all the vital nutrients with a whole new level of freedom. Recommended for mummies as an everyday work pump or weekend travel pump.

Very Powerful breastfeeding milk pump built for the modern motherhood. The Motif Duo breastfeeding pump can operate on multiple modes including Massage, Expression, or Memory and moms can easily adjust between 10 suction levels in the pump.

With its integrated memory function, expression or massage mode along side level of speed or vacuum strength, and massage or expression time can be saved at any time. The Motif pump operates silently and auto-shuts off after 30 minutes of usage. The Motif Duo breast pump features total 3 expression modes and 10 customizable expression levels, as mentioned above.

Key features of [Motif Duo Double Electric Breast Pump](#):
