

Let's talk about the “Best Years” Rising star Cody Lee scores another big touchdown in the country music world

It is May and high school students' thoughts turn towards graduation. A time of infinite possibility and the turning of the page into adult life. It seems this time lends a perfect backdrop for the latest single release from country newcomer Cody Lee

Hollywood, May 10, 2020 (Issuewire.com) - “Best Years” written by Cody Lee, Todd Tombetta and Tommy Dalton is based upon a chance to return to Cody Lee’s high school and a meeting with his old teacher and mentor. The song leads us down memory lane to a young man’s journey back to his high

school after 10 years, where he reflects on the dreams of that period of his life. Perhaps he could have listened closer when told: “they’d be the best years of your life.” He relives the glory days through the visit and looks ahead to the possibility of moving back home and becoming that coach and mentor. This song is a fitting reminder of the dreams of this time of unlimited possibilities of life, as well as a reminder in all things to take it all in as you live it.

Cody lends a very personal perspective to the song, as he was that former standout football player at Woodland HS in McDonough, GA and then perennial powerhouse Saint Thomas Aquinas in Fort Lauderdale, FL. Cody Lee has now relocated back to Georgia, in the familiar area of that time. He may be chasing another dream in country music, but still remembers the “Best Years” on the football fields of his Alma Maters and brings that out in his performance.

Produced by Todd Trombetta and Pete Masitti, “Best Years” has a great story, told in a familiar sound that hits home to everyone. Cody Lee continues to develop as a rising country artist and the personal spin on this track has created his best work to date.

I think everyone will relive those high school memories while listening to this song, and perhaps enjoy a better appreciation of their “Best Years.”

“Best Years” is out on I-Tunes, and all digital formats and make sure to keep your eye on Cody Lee as he continues his growth as a country artist and continues to chase his dream.
