

Lorraine S. Cho Chung Hing, MD, a Nephrologist with Venice Regional Bayfront Health / Florida Kidney Institute

Get to know Nephrologist Dr. Lorraine S. Cho Chung Hing, who serves patients in Venice, Florida.

New York City, May 13, 2020 (Issuewire.com) - Dr. Hing is a practicing nephrologist with Venice Regional Bayfront Health, a 312-bed, acute care hospital providing an array of healthcare services to the greater Venice area.

Along with its affiliated Gulf Coast Medical Group clinics, Venice Regional Bayfront Health provides quality health care that is accessible to residents and visitors across Central and South Sarasota County. Its services include cardiac, stroke, orthopedic, metabolic, open-heart and advanced surgery wound care, women's care, and interventional radiology.

With over two decades of experience in the field of medicine, Dr. Hing is also in practice with Florida Kidney Institute P.A. in Venice, Florida. The mission of the Institute is to provide compassionate, exceptional quality care to patients with hypertension, electrolyte abnormalities, as well as acute and chronic kidney diseases.

Following the completion of her medical degree from the University of South Florida Morsani College of Medicine in 1999, Dr. Hing went on to complete her residency at the University of South Florida Affiliated Hospitals.

A member of the Sarasota County Medical Society, the doctor is board-certified in internal medicine and nephrology by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Nephrology is a specialty of medicine and pediatrics that concerns itself with the kidneys. It is the study of normal kidney function and kidney disease, the preservation of kidney health, and the treatment of kidney disease, from diet and medication to renal replacement therapy. Nephrologists have advanced training in treating kidney disease. They diagnose and treat kidney failure, as well as help patients by prescribing medications, offering special diet advice, and coordinating dialysis care when the time comes.
