

Nesting Days Newborn Baby Carriers, Baby Wraps - Back In Stock

San Francisco, May 12, 2020 ([Issuewire.com](http://www.Issuewire.com)) - Due to the Covid-19 shelter-in-place restrictions in California, Nesting Days was unable to manufacture new baby carriers for the last two months. We are very happy to announce that we were finally able to finish a new batch of our most popular Basic Black and Polka Dot carriers. As of this week, we are fully stocked and fulfilling all orders.

The latest research shows that all newborns want to be held most of the time because that is what nature intended. After over six decades of 'separation' as the norm, researchers across all disciplines are helping us rethink how we welcome our babies into the world. We now understand the transition from womb to world needs to be gradual, and our babies need the warmth of our bodies and reassurance that they are not alone.

The Nesting Days carrier is designed so that you can wear your baby throughout the day. It lets you integrate your newborn into your daily routine, helps you learn your babies cues so you can respond to your baby's needs with confidence, makes breastfeeding easy, and boosts oxytocin levels for you and your baby. Being connected skin-to-skin makes falling in love effortless.

Nesting Days baby carriers for newborns are designed for moms, dads, and guardians who want to create a heart-to-heart bond with their baby. Nesting Days' creator and Chief Mother Officer, Julie Arvan, has more than a decade of experience as an entrepreneur and as a postpartum doula. Her design for the Nesting Days newborn wrap carrier was inspired by yoga wear and is made from a high-performance compression fabric that acts as a slenderizing postpartum body-shaper as well, due to its 4-way stretch compression characteristics.
