

Pioon - Pioneer Of The Intelligent Medical Lasers Manufacturer

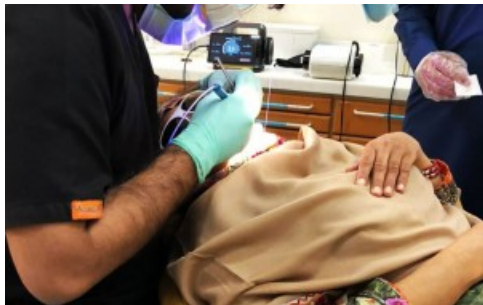

Wuhan, May 22, 2020 ([issuewire.com](http://www.issuewire.com)) - We are very grateful to every user who has been following us, cooperating with us and using our products. We would also like to thank our friends who can provide us with suggestions and even judgments since PIOON always adheres to the development concept of "customer-oriented".

Pioon always insists on presenting our innovative medical lasers and technologies to the users, so each of our products embodies our wisdom and intention right from the duration of R&D in the field of technology to advanced manufacturing, ensuring the star quality for the product. Each of our products is continuously upgraded to match the brilliance of our customers. Therefore, Pioon has achieved such a remarkable rapid development and has remained distinctive. It's all about "**Pioon + (You)**".

We will continue to focus on the research and invest on foundational [medical laser](#) technologies, on product manufacturing technologies, on clinical-based technological changes, on product enhancement, because this is the only way where our products and solutions meet your practical needs.

We are establishing a unique full-service system, and we hope that you can feel our improvement bit by bit in communication with us, and win your satisfaction and trust.

PIOON strive for excellence, only for YOU.

PIOON
