

Review the best architect in Atlanta called Bonsai Architectural Designs

Atlanta, May 10, 2020 (Issuewire.com) - Bonsai Architectural Designs was ranked as one of the **best architects in Atlanta** in 2020. In fact, Bonsai was voted #1 Architect firm on Houzz in Atlanta. Our design reputation was created on performance, trust, and creativity. We love what we do and are constantly looking for new sources of inspiration. Our [Atlanta architect firm](#) specializes in designing Modern and Contemporary homes, Craftsman Style Homes, Farmhouses, and custom Lake Home Properties.

Bonsai architectural designs started in Atlanta Georgia with hopes of being the [best architect in Atlanta](#). With far out and radical designs catching the attention of many around the country we found ourselves driving or flying to other states almost every week of the month. Our main office in Atlanta is the base for our design team, Drafter's, and architects.

As our client base grew in size, so did the company. We have recruited extremely talented artists who also share the same passion for architecture and design. This enabled Corey to focus primarily on the architectural design elements due to the assistance of his other team members whose main focus is the engineering perspective and completing construction documents for permitting.

Bonsai Architectural Design firm created the perfect storm by starting a partnership with expert CAD designers in residential development. Today we include but are not limited to: on-site consultations, taking measurements in order to document existing conditions, remaining on call for any additional assistance throughout the design process and construction. Bonsai's services include but are not limited to: As-Built drawings, Additions, Covered and Uncovered Porches, Sun Rooms, Remodels, New Construction, Commercial, 3D Renderings, and Interior Design. We work directly with the homeowners as well as general contractors, lenders, investors, and real estate agents. We pride ourselves on our

long-lasting relationships that are built on ultra high-quality work, lightning fast completion times, and prices that everyone can afford.

And now building your own home is easier than EVER! As of March 20, 2020 the Governor of Georgia, Brian Kemp, has issued Executive Orders Regarding the Home Building Industry making the permitting process faster than ever before. Call Bonsai Architectural Designs today at (404) 903-0124 or visit us online for your free onsite consultation and let us know how we can help you!
