

sa.global offers free Power BI solution to help clients navigate the economic downturn caused by COVID-19

Leading Microsoft Dynamics 365 provider offers free Power BI solution for advanced collections insights to help clients navigate the economic downturn.

London, May 6, 2020 ([Issuewire.com](https://www.issuewire.com)) - Leading [Microsoft Dynamics 365](#) provider sa.global® announced that they have released an [advanced AR & Collections analytics solution](#) designed to help their clients proactively manage collections activities and maximize cash flow during the economic downturn caused by COVID-19. [sa.global](#) is offering this tool to its Microsoft Dynamics 365 ERP clients

free of charge to help them successfully manage their way through the current economic challenges.

The advanced AR Content Pack leverages Microsoft Power BI to provide rich analytics around key metrics and activities related to analyzing and collecting outstanding customer payments. This solution specifically leverages data from [Microsoft Dynamics 365 for Finance](#) and uses the associated Dynamics 365 BYOD data warehouse technology.
