

## SoftTalk Messenger donates Directly To People Impacted By COVID-19 in Edo State, Nigeria

**Ikeja, May 25, 2020 ([Issuewire.com](https://www.issuewire.com))** - Today, **SoftTalk Messenger**, a leading Nigeria Messaging App, provides immediate relief package to those who need it most during these challenging times.

“People are struggling to keep life going, buy food, medicine and other essentials for themselves and their families. We all feel compassion and concern for those affected by the lockdown occasioned by Coronavirus,” said Simple Azenabor, Founder and CEO of SoftTalk Communication Ltd. “We are proud of our Procurement Team for helping us secure these much-needed items and support with necessary relief to help them get through this crisis” he added.

SoftTalk Messenger, Nigeria’s indigenous Messaging App has today the Friday, May, 22nd 2020 distributed Covid-19 Relief items which include rice, tomatoes and face masks to the people of Ohordua community in Esan South East Local government of Edo State, providing immediate relief to those who need it most during this challenging time.

The Onojie of Ohordua said everyone has been affected by the Coronavirus pandemic and eulogized the effort and kindness of the CEO of the company, Simple Azenabor who is also an indigene of the community for coming forth with a way to helping the many families in need.

According to Mr. Endurance Inegbedion who supervised the palliatives distribution to the community said, people have been struggling under the strict lockdown rules and those living in remote areas have

been badly affected with basic supplies shortages and hope that the little support offered to the Ohordua community by SoftTalk Messenger will play an impact in their lives.

SoftTalk Messenger which unveiled its full version to the public in Nov 2019, allows users to Chat, make FREE audio and video calls and shop products and services is Nigeria's indigenous messaging app, offering SoftTalk to SoftTalk Free calling, and comes loaded with call-out feature, that offers offline low rate cheap calls to Nigeria, Ghana, Japan, Pakistan, USA and the rest part of the world. Its improvement on today's messaging platform by implementing standard encryption algorithms: (RSA-2048, RC4+) ensuring communications are completely encrypted so that only you and the people you're talking to can read or hear them is undoubtedly a plus. Mr. Inegbedion said.

SoftTalk Messenger is available on both iOS and Android. To download SoftTalk Messenger, follow the link below:
